Local Council Websites - Product Sheet

The need for a solution that is low cost, easy to use and provides Local Councils with an up to date web site, is even more important now than ever before.

Engaging effectively with the local community whilst budgets are reduced, means that the only solution to the problem is a digital solution, the e-mango Local Council CMS.

**e-mango Local Council CMS**

This solution enables Local Councils to easily manage the content on their web site, adding items such as news articles, meeting minutes and agendas, events information and spending reviews very quickly.

Anyone with a computer and Internet connection is able to administer the system with little or no training.

We can also design the website to include your social media accounts from Facebook, Twitter and Flickr for example.

**Why choose e-mango?**

e-mango is an experienced and award winning web development company that has been putting clients’ ideas on-line since 2000.

Our low cost web site solution for local councils, was launched at the National Association of Local Council’s annual conference in Bournemouth 2007.

The solution has been completely created by, hosted by and is supported by e-mango from its Bournemouth offices.

What town and parish councils have we worked with?

We have worked with councils up and down the country including Aylesbury, Burntwood, Charders Ford, Curdridge, Chesham, Daventry Fair Oak and Horton Heath, Halewood, Higham Ferrers, Irthingborough, Maghull, Portishead and North Weston, Raunds, Totton and Eling, West Bletchley, Whiston, Woughton and Wollaston.

We also provide the web sites for the National Association of Local Councils and Hampshire Association of Local Councils.

**Benefits**

- Easy to use, updates in seconds
- Training and Support options
- Engage with your community
- Create sections for registered visitors or councillors
- Provide sponsorship and advertising opportunities
- Web site forms for the public to contact you

"The Members of the Council and myself, are delighted with the appearance of the website. Many thanks to e-mango for making this all happen. The website content management system has been very easy to work with and we are grateful for the help from e-mango whilst we have been building the site.

The ongoing service, co-operation and assistance we have received from e-mango during the very few times that we have experienced a problem or needed assistance in producing something new, has been first class, very professional and cost effective for what we pay. We are very pleased with our long working relationship with e-mango.

John Green, Town Manager for Halewood Town Council"

CMS Features

Pages
Web pages can be added with the click of a button. To further enhance the page, you can also add images, format text and create links to other web pages on your own site or elsewhere.

Articles
News articles are a way to provide information updates that can be listed and grouped together automatically.

Menus
Use menus to help visitors quickly find the information they require.

Polls
Create simple question and answer polls for quick surveys.

Dynamic Forms
These let you create enhanced questionnaires where you can have text fields, menu items, radio buttons and checkboxes for collecting responses.

Banners
Banners are graphic images that can be automatically placed within the website. They are great for advertising and sponsorship purposes.

Quick Links
A short list of links, in a managed block, that can be placed on any page.

Documents
Upload documents such as Word, Excel and PDFs for example.

Images
Images can be uploaded and reused across the whole web site.

Web Site Enquiry Form
A contact form for the public to get in touch.

Design Templates
It is possible to have different design templates to create different themes, for sections of the web site.

Search Engine
Visitors can easily search across the whole of your web site. This includes all the web pages, news articles and even the content of uploaded documents.

Permissions
Access to web site content can be restricted using permissions. For example, a specific section can be created for councillors who need to log into the web site.

Registered Users
Visitors can register themselves with the web site and access restricted content, if their permissions allow.

Need more information?
There are further documents, white papers and case studies on the e-mango web site.
